

Objection and  
Motion to reconsider

The clerk informed me of the court's offer of a viewing room but that I'd need to put on a mask in the hallways of the building.

This response ~~involves~~ <sup>impedes</sup> my medical condition and religious objection.

As a member of the press, like anyone else, I have a right to observe court proceedings, ~~which~~ I should

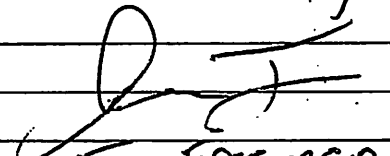

not be required to endanger my health or violate my religious beliefs to

observe the court. If the court will continue to disallow me entry without a mask, it should provide me with

~~a~~ feed over the internet so I can observe the trial and report on it as the supposedly free press.

If this motion is denied, please provide a written denial stating why.
